

HUMAN v MACHINE

What does it all mean?

Robots, technology and construction law

18 MAY 2017

*Robot lawyers | Artificial Intelligence | Automation |
Intelligent Software | Chatbots | Machine Learning*

What is the hype all about? What does all of this jargon mean?
Is it relevant to construction law? What technology is available now?

The TeCSA 10s are pleased to invite you to a panel debate on robots, AI and construction law with leading innovators in this field. The discussion will provide a background to "AI & Law", with a focus on the technology and innovation available now. Free to attend, but RSVP soon to reserve your place!
